

FIRE SAFETY & PREVENTION TRAINING FOR RECYCLING FACILITIES

Join ISRI's Safety Team for a Free education and training course focusing on **Hazard Recognition: Fire Safety and Prevention**. This class was developed to assist all recycling facilities & all commodities to better understand and deal with hazards associated with fires in recycling facilities not limited to Materials Recovery Facilities (MRFs) & Scrap Processing environments. Attendees will learn ways to potentially control these hazards and to avoid significant losses due to fires. **All levels of recycling company employees are encouraged to attend.** The course will be taught by ISRI Safety and a fire professional familiar with recycling facilities.
